

Why use

E Ara E?

We know finding staff can be time consuming. We are here to help!

We know every organisation is unique, as are the people you employ. Our Employment Specialists are here to listen – to learn about your company and understand your employment needs.

We can offer a range of services to help you find and keep the right people for the job – including pre-screening, candidate coaching and after-placement mentoring services.

If we find a good match for you, we are also here to offer guidance and support for you and your new employee during the first weeks and months of employment.

We want the experience to work well for everyone.

How does it work?

E Ara E candidates receive wrap-around wellbeing and employment support from the time they connect with us.

Our multi-disciplinary team supports participants to develop skills and strategies that help them move confidently towards the future they want. This may include career planning sessions, skills workshops, and wellbeing support.

We then work with them to identify opportunities for work or study, offering support as needed on the pathway of their choice. Once in work, we check in regularly, offering ongoing mentoring or other support, on request.

Employers and businesses working with E Ara E can also access a range of recruitment and post-placement services.

Together it's possible.

Supporting employers to find great employees

E Ara E is an Odyssey employment service connecting young adults (18 to 24 years old) with sustainable work and study opportunities in Auckland.

A partnership with the Ministry of Social Development, E Ara E offers employers a free, professional and confidential supported employment service.

Next steps
